DISTANCE TEACHING

RESOURCES

FOUR GREAT OPPORTUNITIES

We know that your job as a professional educator got a lot harder due to COVID-19 and we wanted to help with some resources that are ready to go for the virtual classroom. Fit these handy tools into your syllabus and let us know if there's any other way we can be of assistance.

1. LIVE CUSTOM STABLE PRESENTATION

A 40 minute live video presentation by one of our consultants that will take your students through all of the specifics of the Custom Stable scleral lens. This is a great way to give your future optometrists a high level overview of what a scleral is, how they work, their anatomy and how to fit and troubleshoot them.

CS Presentation (30 minutes)

- Custom Stable Indications For Use
- Custom Stable Quick Start Video
- Independent Customizations
 - Central Clearance Zone (CCZ),
 - Limbal Independent Transfer (LITe) Zone
 - Scleral Landing Zone (SLZ)
- Evaluation
 - OCT and Slit Lamp
 - Initial Blue Light Check
- Frequently asked questions
 - Lens Selection, Fogging, Solutions, Edges, etc.

Q & A (10 minutes)

2. VIRTUAL MANUFACTURING TOUR

We have an incredible state-of-the-art manufacturing facility. Let our staff take your students on a step-by-step tour through the entire custom contact lens manufacturing process from start to finish. They'll learn about lathing, polishing, quality checking and all of the other steps that it takes to create the world's best contact lenses. This tour will be done in real-time with our lab manager leading the tour and fielding questions from your students.

3. CUSTOM STABLE TRAINING COURSE

Need a well produced to-the-point video to teach your class about the ins and outs of scleral lens fitting? How about a quiz to go along with it? Look no further than our recently updated Custom Stable Training Course. The beautifully produced video highlights the anatomy and strategic principals to fitting this amazing lens and the quiz is the perfect follow-up to test your students' comprehension.

4. CUSTOM STABLE QUICK START FITTING GUIDE

This is a great companion to the training video and quiz mentioned above. Use this beautifully designed one page guide in combination with our Custom Stable Training Course or solo during your lectures. Either way this handy reference is packed with vital information that will give your students a feel for real-world scleral fitting.
